Everest Group names Capgemini a leader in Next-generation Quality Assurance (QA) Services PEAK Matrix Assessment 2020

Paris, March 9, 2020 – Capgemini today announced it has been positioned as a Leader in the Next-generation Quality Assurance (QA) Services PEAK Matrix™ 2020 assessment. Everest Group analyzed 19 services as a part of this report under the evaluation parameters of market impact, vision and capability. Capgemini was recognized for its "*investment in a suite of cognitive QA and test automation solutions that can deliver meaningful cost and effort saving.*"

The report also acknowledged Capgemini for:

- Building proprietary tools for Connected Ecosystem testing, both at IT and OT layers, along with relevant proof points
- Demonstrating proof points along with business impact across different areas in Next-gen QA, particularly in areas related to cloud-native and connected products testing

Mark Buenen, Global Leader, Digital Assurance and Quality Engineering for the Capgemini Group said: *"We are delighted to be positioned as a Leader in next-generation Quality Assurance services by Everest Group. Capgemini is committed to enabling business transformation and agility for its customers in the disruptive, digital-led environment. Our best-in-class QA services are designed to cater to addressing organizational challenges around quality, security and responsiveness to business demands, while optimizing budgets, time and resources."*

"Enhanced customer experience and faster speed-to-market will continue being our focus areas as we collaborate with our customers to build enterprises of the future," he further added.

"To serve the evolving QA market, both in terms of role and technology landscape, Capgemini has invested in a suite of cognitive QA and test automation solutions focused on delivering cost and effort savings," according to Yugal Joshi, Vice President, Everest Group. *"Capgemini also leverages relevant proof points, especially in cloud-native applications and connected ecosystems areas, to boost enterprise confidence."*

Capgemini is at the forefront of providing world class solutions for next generation Quality Assurance to its customers globally, incorporating digital technologies such as collaborative robotics, data analytics, machine learning, immersive technologies and intelligent automation assistants.
